nop = sends nothing

code = postfix for ascii code not printable

test prog

```
10  A = -16384
20  I = PEEK (A) : IF I <> B then B=I : ? B , B-128, CHR$ (B)
30  goto 20
```

Dit programma is te sloom om de toetsen te kunnen volgen (functietoetsen)

maar verder voldoet het prima
